

Headache-free RJ45 Terminated Cable Arrays

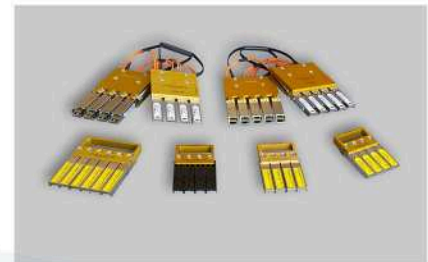

Save Time! Save Money! Save Aspirin!

CMSolutions RJ45 terminated cable arrays are available in a wide variety of styles. Choose the number of ports, cabling, pinout, spacing, color, handle style, etc. to get just the right array for your needs. Our experienced engineering team is here to help with any of your questions.

CMSolutions invented the cable array in the mid -1990's, and some of our original arrays are still in use. They are virtually indestructible. Often copied, never matched, CMSolutions cable arrays are the gold standard for testing your products.

Since 1994, CMSolutions has been serving industry leaders including Cisco, Juniper, Extreme, F5, Foundry, Flextronics, Foxconn, Jabil, Sanmina, and others with its patented line of labor-saving test aids, cables, and custom test solutions. We stand behind every product we sell with a lifetime no questions asked guarantee. Contact us today to find out how CMSolutions makes product testing easier for you.

- Proven design – over a quarter million shipped; many have been in continuous use for over ten years
- Prevents damage to units under test
- Prevents repetitive motion injuries for operators
- Cuts cable installation and removal time by up to 16X
- Cables can be replaced in seconds
- Virtually indestructible

CAT6A-Based Test Systems

Rack up another success with CMSolutions

CMSolutions CAT6A-based test systems provide you with up to 1000 meters of terminated CAT6A cables on a single 7 foot high telco rack. Our UTP and STP systems pass all standard CAT6A test requirements (based on up to ten 100 meter cables on a single telco rack) including NEXT and alien crosstalk.

We use heavy duty, wheel-mounted racks, rated for up to 600 lbs. We typically configure our racks with 90 meter cables connected to patch panels at each end with additional 5 meter cables extending from each patch panel, for a total cable length of 100 meters, so the ends can be replaced once worn, without replacing the entire cable length. However, we are happy to configure your racks to meet your individual needs. We ship full test reports with every rack.

- 1000 meters of CAT6A cable on a single Telco Rack
- UTP or STP
- Passes all standard tests including NEXT and Alien Crosstalk
- Includes 600 lb. rated Telco Rack with wheels
- Patch panels for quick and low cost replacement of worn ends

CAT5, CAT5E, CAT6, CAT6E, CAT6A

CATch a great deal on our copper cables!

CMSolutions copper cables are convenient, priced right, 100% tested, and in stock. This means that you can order the cables you need tonight and have them on your desk tomorrow. Choose the cable type and connector you need, and select from dozens of in-stock colors and lengths.

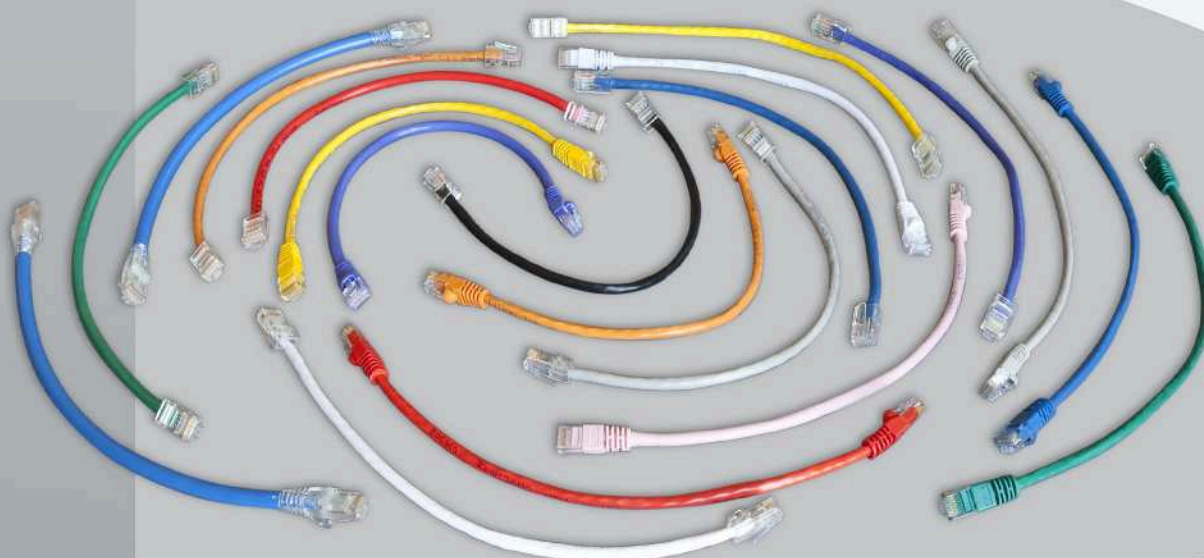

Our CAT6A cables pass NEXT and alien crosstalk testing. We'll be happy to provide the test data.

Since 1994, CMSolutions has been serving industry leaders including Cisco, Juniper, Extreme, F5, Foundry, Flextronics, Foxconn, Jabil, Sanmina, and others with its patented line of labor-saving test aids, cables, and custom test solutions. We stand behind every product we sell with a lifetime no questions asked guarantee. Contact us today to find out how CMSolutions makes product testing easier for you.

- Best prices in the industry
- Next day delivery on 100's of in stock colors and lengths
- Choose from CAT5, CAT5E, CAT6, CAT6E, and CAT6A
- 100% money back, no questions asked guarantee
- Unlimited custom cable options

Custom Cable Arrays

If you can dream it, we can make it!

USB, HDMI, Push-on BNC, Mini-SMB, RJ45 12-Port Jack, SMB, Angled MTRJ, Offset Row RJ45, CAT6A, Infiniband. These are just some of the connectors our customers have asked us to design and make cable arrays for. We haven't seen a challenge yet we couldn't meet. So throw your toughest requirement at us.

CMSolutions invented the cable array in the mid -1990's, and some of our original arrays are still in use. They are virtually indestructible. Often copied, never matched, CMSolutions cable arrays are the gold standard for testing your products.

Since 1994, CMSolutions has been serving industry leaders including Cisco, Juniper, Extreme, F5, Foundry, Flextronics, Foxconn, Jabil, Sanmina, and others with its patented line of labor-saving test aids, cables, and custom test solutions. We stand behind every product we sell with a lifetime no questions asked guarantee. Contact us today to find out how CMSolutions makes product testing easier for you.

- Custom designs to precisely meet your needs
- Prevent damage to units under test
- Protect your operators from repetitive motion injuries
- 15 years of experience
- 100% Guaranteed

PCBA-Based Pluggable Test Fixtures

Get on board with CMSolutions

CMSolutions has taken its labor saving and equipment protecting cable array concept and applied it to testing with PCBA's. Currently in use with surface mountable CAT6A and Infiniband test PCBA's, our PCBA-based pluggable test fixtures can be designed to hold and support any pluggable PCBA you have.

Since 1994, CMSolutions has been serving industry leaders including Cisco, Juniper, Extreme, F5, Foundry, Flextronics, Foxconn, Jabil, Sanmina, and others with its patented line of labor-saving test aids, cables, and custom test solutions. We stand behind every product we sell with a lifetime no questions asked guarantee. Contact us today to find out how CMSolutions makes product testing easier for you.

- Protects PCBA from damage from handling or dropping
- Eliminates stress on solder joints
- Prevents repetitive motion injuries for operators
- Shortens installation and removal times
- Virtually indestructible

Fiber Optic Data Cables

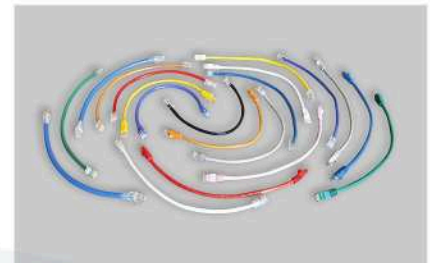

Getting your daily fiber just got a whole lot easier!

CMSolutions fiber cables are convenient, priced right, 100% tested, and in stock. This means that you can order the cables you need tonight and have them on your desk tomorrow. Choose the connector and cable type you need, and select from dozens of in-stock colors and lengths.

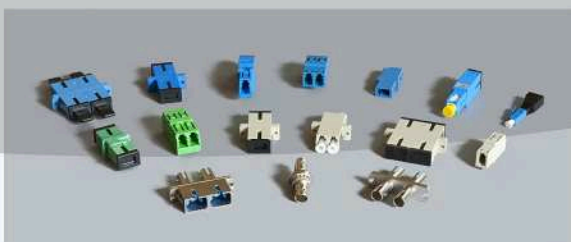

Need adapters, attenuators, couplers, etc? We have these to, in simplex and duplex, for every cable type and connector. Need bulk cable, multistrand, fanouts, odd lengths, custom labeling, plenum rated, outdoor cable, armored cable, or anything else custom? Just ask, and we'll be happy to accommodate your needs.

Since 1994, CMSolutions has been serving industry leaders including Cisco, Juniper, Extreme, F5, Foundry, Flextronics, Foxconn, Jabil, Sanmina, and others with its patented line of labor-saving test aids, cables, and custom test solutions. We stand behind every product we sell with a lifetime no questions asked guarantee. Contact us today to find out how CMSolutions makes product testing easier for you.

- Best prices in the industry
- Next day delivery on 100's of in stock lengths and colors
- Multimode, 10 gig, single mode, plenum, outdoor, armored, etc.
- FC, LC, MTRJ, SC, ST
- 100% money back, no questions asked guarantee
- Unlimited custom cable options
